

MY PARCELS

A unique window to choose your courier provider from a wide range and enjoy our low prices.

Discount shipments

Benefit from significant cost reductions thanks to its collective purchasing power from the largest carriers.

Easy shipments

With our shipping system online, shipments are fast. Your packages and addresses are saved automatically.

Reports

Create reports quickly giving you an overview of shipments made and facilitating cost management.

Compare rates

Easily compare the costs of our partner carriers to get the delivery that suits you at the best price.

Security

Prevent abuse and fraud by controlling users and giving restricted access.

Tracking shipments

Track the progress of your shipments on one page and receive email updates

Single invoice

Simplify your management: pay only one supplier by receiving a single invoice even if you use multiple carriers.

Print your labels

Our system generates bills of lading that can be printed on a traditional or thermal printer.

International assistance

Our system generates your commercial invoices to facilitate your international shipments and also allows you to import your parcels from abroad.

Easy collaboration

Our multi-user system allows your company to have accounts for multiple employees or collaborators around the world.

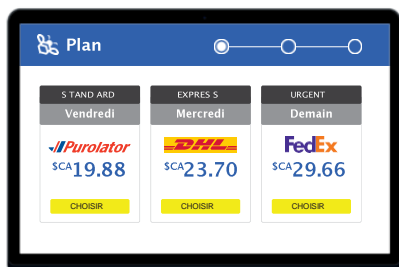

Share your contacts

Create and share your address books between colleagues. In addition, they are automatically updated which allows faster input.

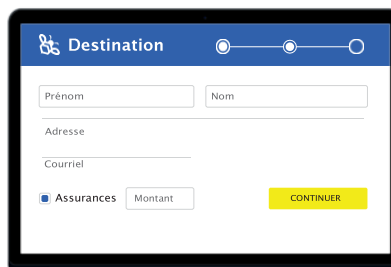

Customer service

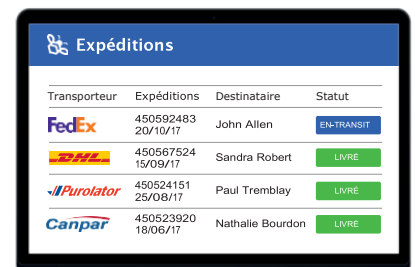

We are here to help you at all stages of your expeditions; Quotations to international documentation through the free shipping supply order.

Quickly get estimates from multiple carriers

A step-by-step system for simple ultrasonic expeditions
